ABSTRACT:

PlatoX, the solution developed by the PlatoDKFZCharité consortium operates a set of highly performant bioinformatic pipelines combined with an automated regulatory workstream. The solution consists of a standardised high-performance variant calling pipeline (PlatoX), combined with a containerized platform that allows for more novel bioinformatics approaches (One-Touch-Pipeline). In this manner, the solution bridges the gap between innovation and patient care.

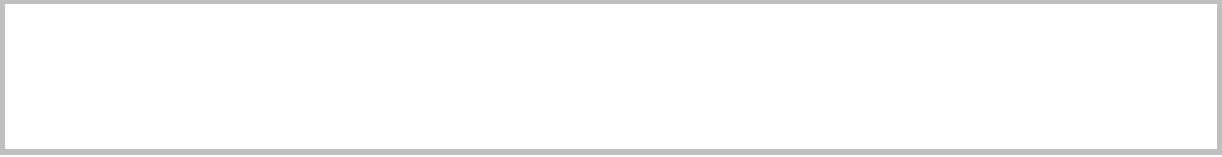

Previous EU funding

Is the project based on / a continuation of R&D activities that were previously funded by the EU?: YES/NO
 Platomics: NO
 DKFZ: NO
 Charité: Yes

If yes, identify this EU funding:

[European Union's Horizon 2020] — [ESPACE] — [No 874710]
 [European Union's Horizon 2020] — [EOSC-life] — [No 824087]

Project funded by the EU Horizon 2020 Programme
